

How to use comparisonGenerator.exe by Xiaopei Zhang:

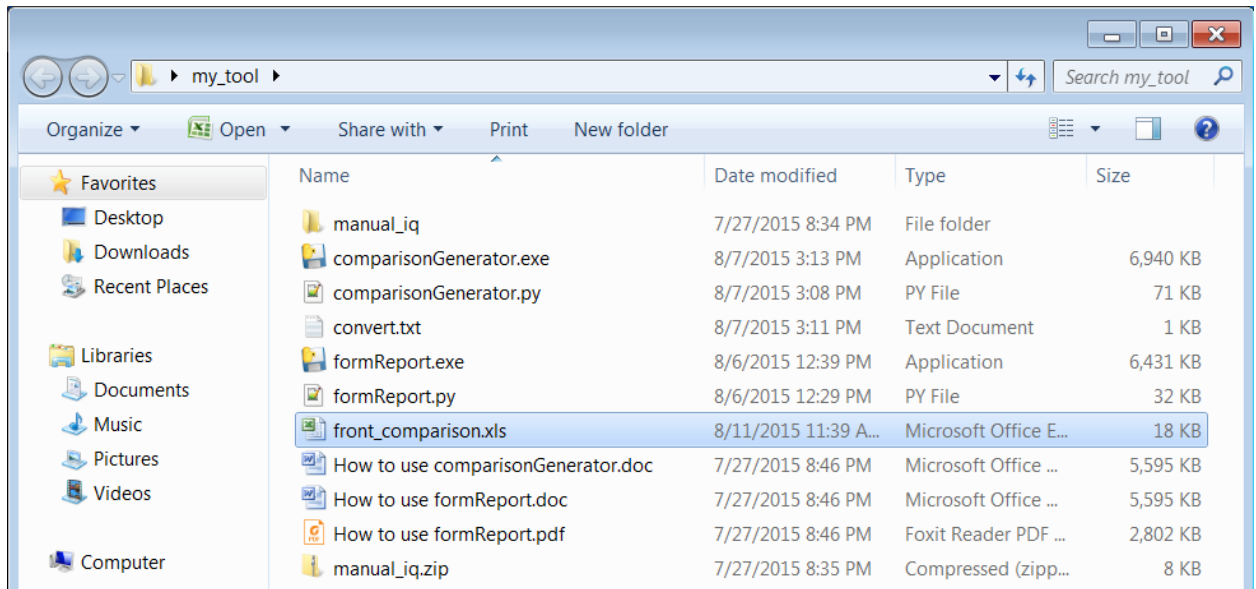

1. Copy and paste the directory where xls files like IKIMG-2439_iq_front.xls exists

2. If you want rear comparison, click Get Rear comparison.xls; If you want front comparison, click Get Front comparison.xls

3. Check whether the xls files exist. It should be under the same folder where this tool exists

4. Open xls files, and it is done. Modify it if you like. Above Measured Values are xls file names

front_comparison.xls [Compatibility Mode] - Microsoft Excel
